# WIOA ELIGIBILITY MATCHING & ENROLLMENT PLATFORM

## Developer Product & Technical Specification

**CORE PRODUCT OUTCOME**

**Match the student to the correct workforce board and point of contact, initiate WIOA outreach directly from the app, collect required eligibility documents, track the WIOA process, and move the student toward ETPL apprenticeship tuition approval.**

Prepared for software development planning | Version 1.0

September 2026

# 1. Product Vision

The application is a WIOA eligibility matching, document intake, case-tracking, and apprenticeship funding platform. It should reduce friction between a student, the correct Local Workforce Development Board/AJCC, and an ETPL-listed apprenticeship program.

**PRIMARY WORKFLOW**

Student registers -> location is matched -> workforce board/AJCC/contact is assigned -> outreach email is sent -> required documents are uploaded -> intake/orientation is tracked -> eligibility is determined -> ETPL apprenticeship funding is requested -> tuition approval is tracked.

# 2. User Roles

| Role | Primary Function |
|---|---|
| Student | Register, get matched, email workforce board, upload documents, complete checklist, track status. |
| Partner Staff | Assist assigned students, review progress, identify missing items, record follow-up. |
| WIOA Coordinator | Monitor cases, communications, appointments, eligibility progress, and funding requests. |
| Administrator | Manage routing, boards, AJCCs, contacts, program requirements, templates, users, and reporting. |

# 3. End-to-End Student Workflow

1. Create account and student profile.
2. Enter residential address, city, state, and ZIP code.
3. Automatically match student to the correct workforce board, AJCC/career center, and WIOA point of contact.
4. Display the assigned workforce office and the actions: Email, Call, View Requirements.
5. Generate and send a standardized WIOA eligibility / ETPL apprenticeship training email.
6. Create a WIOA case automatically when outreach is sent.
7. Show the student the required WIOA eligibility document checklist.
8. Allow secure mobile document upload and track document status.
9. Track orientation, CalJOBS, application, intake appointment, and eligibility review.
10. Once eligible, track the ETPL apprenticeship training funding request and tuition authorization.
11. Complete the case when the student is approved and enrolled in apprenticeship training.

## 4. Student Registration & Profile

| Field | Requirement |
|---|---|
| First / Last Name | Required |
| Date of Birth | Required |
| Email | Required |
| Mobile Phone | Required |
| Street Address | Required for routing |
| City / State / ZIP | Required for routing |
| Preferred Language | Recommended |
| Employment Status | Recommended |
| Unemployment Insurance Status | Used to determine EDD-letter requirement |
| Training / Apprenticeship Interest | Required for funding workflow |

**ROUTING RULE**

Use residential address/ZIP as the primary routing source. City can be used as a fallback or secondary check. Do not route based on the training provider location.

## 5. Workforce Board Matching Engine

The matching engine is the core logic of the platform. Jurisdiction and contact data must be editable in the admin portal and must not be hard-coded into the front end.

| Input | System Output |
|---|---|
| Student address / ZIP | Jurisdiction |
| Jurisdiction | Local Workforce Development Board |
| Workforce Board | AJCC / Career Center |
| AJCC | Primary WIOA point of contact |

| Input | System Output |
|---|---|
| Contact unavailable | Secondary contact |
| Secondary unavailable | General WIOA/AJCC intake route |

## 6. Direct Workforce Board Email

After matching, the student should be able to begin the WIOA process directly from the app. The app should pre-address and pre-populate the message, allow review, and then send it.

> **SUGGESTED SUBJECT**
>
> Request to Begin WIOA Eligibility Process for ETPL Apprenticeship Training

**Suggested email body**

Hello,

My name is [First Name] [Last Name], and I reside in [City, ZIP Code].

I am interested in beginning the WIOA eligibility process to determine whether I qualify for WIOA funding for apprenticeship training through a program listed on the Eligible Training Provider List (ETPL).

Please let me know the next steps required to begin the WIOA intake and eligibility process, including any orientation, application, appointment, CalJOBS registration, or documentation I need to complete.

Thank you,
[Student Name]
[Phone]
[Email]

## 7. WIOA Case Status Pipeline

| # | Status |
|---|---|
| 1 | Registered |
| 2 | Workforce Board Matched |

| # | Status |
|---|---|
| 3 | Initial Contact Sent |
| 4 | Awaiting Response |
| 5 | Orientation Scheduled |
| 6 | Orientation Completed |
| 7 | CalJOBS Completed |
| 8 | WIOA Application Submitted |
| 9 | Documents Pending |
| 10 | Documents Submitted |
| 11 | Intake Appointment Scheduled |
| 12 | Eligibility Under Review |
| 13 | WIOA Eligible |
| 14 | ETPL Training Requested |
| 15 | Training Authorization Pending |
| 16 | Tuition Approved |
| 17 | Apprenticeship Enrollment Complete |
| 18 | Closed / Ineligible |

## 8. Required WIOA Document Module

Document submission is a core function. Students must be able to upload required eligibility documents from a phone or computer and see the status of each item.

| Document / Requirement | System Treatment |
|---|---|
| Age 18+ | Eligibility rule / profile validation |

| Document / Requirement | System Treatment |
|---|---|
| California Driver License, State ID, U.S. Passport, or U.S. Birth Certificate | At least one accepted identity document |
| Social Security Card | Required document |
| Selective Service Verification | Required when applicable under WIOA rules; do not label as optional |
| EDD Award Letter | Conditionally required if the student filed for, is receiving, or exhausted UI within the last 6 months |
| CalJOBS Account | Required enrollment milestone |
| Additional Workforce Board Documents | Configurable by workforce board in admin portal |

## 9. Student Document Upload Experience

- Each requirement appears as a card with name, description, current status, and Upload button.
- Support PDF, JPG/JPEG, and PNG uploads. Mobile users should be able to select a photo from their device or take a new photo through the device file picker.
- After upload, show filename, upload timestamp, and review status.
- Allow re-upload when a document is rejected or unreadable.
- Allow student to submit all completed documents for review.
- When all applicable documents are uploaded, change the case from Documents Pending to Documents Submitted.

| Document Status | Meaning |
|---|---|
| Missing | No file submitted |
| Uploaded | Received by platform |
| Under Review | Awaiting staff review |
| Accepted | Document satisfies requirement |
| Rejected / Resubmit | File is unusable or does not satisfy requirement |
| Not Applicable | Only where the configured program rule permits this status |

## 10. Document Security & Privacy Requirements

**SECURITY REQUIREMENT**

Government IDs, Social Security cards, birth certificates, and similar records are sensitive documents. They must not be stored or served like normal public attachments.

- Private encrypted object storage.
- Encryption in transit and at rest.
- Role-based document access.
- Short-lived signed URLs or equivalent protected file access.
- Audit logs for view, download, upload, verification, and deletion events.
- Multi-factor authentication for privileged staff where feasible.
- Document retention and deletion policy configurable by organization.
- Do not expose direct public URLs to sensitive files.
- Separate "uploaded" from "verified/accepted" in the data model.

## 11. Core Data Model

| Table | Purpose |
|---|---|
| users | Authentication and roles |
| students | Student profile |
| partners / cohorts | Organization and cohort assignment |
| addresses | Residential routing data |
| workforce_boards | Local workforce board directory |
| ajcc_centers | Career center directory |
| workforce_jurisdictions | ZIP/city/area routing logic |
| workforce_contacts | Primary, secondary, and general intake contacts |
| wioa_cases | Master student WIOA case |
| wioa_status_history | Immutable status history |
| eligibility_requirements | Configurable requirements |
| student_eligibility | Student completion against requirements |

| Table | Purpose |
|---|---|
| documents | Secure document metadata |
| communications | Email and outreach log |
| appointments | Orientation/intake/follow-up dates |
| training_programs / etpl_programs | Training and ETPL records |
| funding_requests | WIOA training funding requests |
| funding_authorizations | Tuition / training approval records |
| audit_logs | Security and activity history |

## 12. Suggested Document Record

```
student_document_id
student_id
wioa_case_id
document_type
file_name
file_storage_path
mime_type
uploaded_at
uploaded_by
review_status
reviewed_by
reviewed_at
rejection_reason
expiration_date
notes
```

## 13. Workforce Board / Contact Records

| Entity | Key Fields |
|---|---|
| Workforce Board | name, county, service area, website, phone, email, address, orientation URL, application URL, active flag |
| AJCC | name, workforce_board_id, address, phone, website, intake instructions, active flag |

| Entity | Key Fields |
|---|---|
| Contact | workforce_board_id, ajcc_id, name, title, email, phone, contact type, priority, active, last verified date |
| Jurisdiction | ZIP, city, county, workforce_board_id, ajcc_id, effective date, active flag |

## 14. ETPL Training & Tuition Funding

WIOA eligibility and training funding approval must be separate states. A student can be WIOA eligible but not yet approved for a specific training expenditure.

| Milestone | Track Separately |
|---|---|
| ETPL provider/program confirmed | Yes |
| Training request submitted | Yes |
| Case manager notified | Yes |
| Funding review | Yes |
| ITA / training authorization issued | Yes |
| Approved amount | Yes |
| Tuition approval date | Yes |
| Training start / enrollment | Yes |

## 15. Student Dashboard

- Current workforce board and AJCC.
- Assigned point of contact and Email / Call actions.
- Current WIOA case status and next action.
- Eligibility checklist and document completion progress.
- Orientation / intake appointment details.
- ETPL apprenticeship training request status.
- WIOA tuition funding status.

## 16. Partner / Staff Dashboard

| Dashboard Metric | Examples |
|---|---|
| Cohort pipeline | Registered, contacted, orientation completed, eligible, ETPL requested, tuition approved, enrolled |
| Filters | Cohort, city, county, workforce board, AJCC, case manager, status, training program |
| Document readiness | Complete count, missing requirements, rejected documents |
| Follow-up queue | Students needing action today / overdue |
| Board performance | Approval rate, average days to eligibility, funding conversion |

## 17. Admin Console Requirements

- Add/edit/deactivate workforce boards, AJCCs, jurisdictions, and contacts.
- Maintain primary, secondary, and general-intake contacts for each route.
- Update contacts without a software deployment.
- Track "last verified" date and flag stale contacts for review.
- Configure eligibility/document requirements by workforce board.
- Manage email templates.
- Manage ETPL/training program records.
- Manage organizations, partners, cohorts, users, and permissions.

## 18. Automation & Follow-Up Rules

| Trigger | Suggested Action |
|---|---|
| No response 3 business days after initial email | Remind student/assigned staff to follow up |
| Documents pending for 5 days | Notify student of missing requirements |
| Document rejected | Notify student with resubmission reason |
| WIOA eligible, ETPL request not started | Prompt next step: request training funding |
| Upcoming appointment | Send reminder before orientation/intake |

## 19. Core Business Rules

- Use verified address/ZIP routing first; city is secondary.
- Do not make students guess their workforce board when a verified route exists.
- Every route should have a primary contact, backup contact, and general intake fallback.
- Every outgoing email must be logged with recipient, timestamp, and status.
- Every WIOA case status change must be timestamped and preserved historically.
- Administrators must be able to change routing and contacts without code changes.
- ETPL status must be tracked separately from generic training-provider status.
- WIOA eligibility must be tracked separately from training/tuition approval.
- Document uploaded is not the same as document verified.
- Permissions must follow least-privilege access, especially for sensitive documents.

## 20. Recommended MVP Build Order

| Phase | Scope |
|---|---|
| MVP 1 - Student + Match | Registration, address/ZIP routing, WDB/AJCC/contact display, call/email actions |
| MVP 2 - Documents + Case | Eligibility checklist, secure uploads, status pipeline, case creation |
| MVP 3 - Partner/Admin | Dashboards, filters, follow-up queue, routing/contact management |
| MVP 4 - ETPL + Funding | Training selection, ETPL verification, funding request, tuition authorization, enrollment |

## 21. Long-Term Product Architecture

Build the platform as a multi-organization system rather than hard-coding one school or partner into the architecture. This allows the same platform to support apprenticeship sponsors, workforce partners, community colleges, Job Corps programs, and other training organizations.

**PRODUCT MODEL**

MATCH: Where does this student belong? | QUALIFY: What must be completed for WIOA eligibility? | FUND: How does the student move from eligibility to ETPL apprenticeship tuition approval?

## 22. Developer Acceptance Criteria

- A student can register and be routed to the correct configured workforce board/AJCC based on residence.
- A student can review and send a prewritten WIOA eligibility email to the matched contact.
- Sending outreach creates or updates the WIOA case and communication log.
- A student can see all required and conditional documents and upload them securely.
- Staff can accept, reject, or request resubmission of each document.
- Sensitive documents are never exposed by public URLs.
- Staff can track every student through the WIOA pipeline.
- Administrators can change contacts and jurisdiction routing without a code deployment.
- WIOA eligibility and tuition approval are separate tracked milestones.
- The system supports future expansion to multiple organizations and training providers.
